Chapter 3 Test Key

1. photosynthesis
2. nitrogen cycle
3. respiration
4. water cycle
5. rock cycle
6. food chain
7. carbon cycle
8. (b) Nitrates are used by plants to make protein so the plants can grow.
9. (a) nitrogen
10. (a) plants are not present to hold down the soil
11. (b) resistant force
12. (d) Work
13. (b) heat
14. (c) vegetable, fruit, grain
15. _c_ aquifer
16. _a_ solution
17. _b_ concussion
18. _d_ temperature
19. 212º
20. 32º
21. 0º
22. 0º
23. nutrients
24. layers
25. Erosion
26. friction
27. work
28. heat
29. Kinetic
30. potential
31. Nitrates
32. (b) Responsible use of what we have enables us to have resources during hard times.
33. (a) Decisions you make now (today) will determine your success or failure in the future.
34. (c) Distractions, like water and wind, can erode your noble plans until little is left to make you successful.
35. (b) Eating nutritious foods will, in turn, provide you with a healthy body.
36. (c) Depending on our responses, pressure can make or break us.
