Chapter 3 Test Key

1. i refraction
2. d reflection
3. f diffraction
4. c conduction
5. j convection
6. b radiation
7. h acid
8. a base
9. g alloy
10. e fossil fuels
11. False
12. True
13. False
14. True
15. False
16. False
17. True
18. c atom
19. d atomic number
20. e proton
21. a neutron
22. f electron
23. b atomic weight/mass
24. pitch
25. convex
26. sunlight
27. electricity
28. neutralize
29. chemical
30. electricity
31. chemical
32. active
33. Mercury
34. mixture
35. compound
36. elements
37. lithosphere
38. g Roger Bacon
39. d Hans Lipperhey
40. b Dmitri Mendeleev
41. a Galileo
42. c Isaac Newton
43. f Louis Daguerre
44. e Thomas Edison
45. g topographical maps
46. d nautical maps
47. b meteorological maps
48. e atmosphere
49. a hydrosphere
50. f lithosphere
51. c troposphere
52. (b) Wise people work hard to be worthy of the wages they are paid.
53. (c) Doing something to correct a problem is better than just complaining about it.
54. (a) Your attitude has a great deal to do with success or failure in life.
55. (b) Many invisible things exist (such as love, hope, peace) that we are not able to measure with even our best equipment.
56. (c) The reputation of your family and the people with whom you associate cause people to form opinions about you before getting to know you personally.
