CHAPTER 5
TABLE OF CONTENTS

PAGE

SECTION 1

1. FISH AND OTHER VERTEBRATES 3-7
   Features of Land and Aquatic Vertebrates

2. FISH AND AMPHIBIANS 9-13
   Features, Spawning, Metamorphosis

3. AMPHIBIANS AND CLIMATE ZONES 15-19
   North to South Pole Zones, Salamander Types and Characteristics

4. REPTILES 21-25
   Cold-bloodedness, Hibernation, Reproduction; Dinosaur Extinction Theories

5. THE SCIENTIFIC METHOD, FRAUDS AND FAKES 27-31
   Importance of Scientific Method in Preventing Hoaxes

SECTION 2

6. DARWIN, AGASSIZ AND SNAKES 33-38
   Vignettes of Darwin and Agassiz; Venomous and Non-venomous Snakes

7. LIZARDS AND TURTLES 39-44
   Characteristics and Habitats of Various Types

8. TURTLES AND CROCODILES 45-49
   Types, Characteristics, Habitats

PAGE

9. CROCODILES, ALLIGATORS AND BIRDS 51-55
   Crocodile vs. Alligator Features, Range; Various Bird Features

10. BIRDS 57-60
    Characteristics of Migratory Birds

SECTION 3

11. MAMMALS 61-65
    Single-most Distinguishing Factor: Milk Production; Unusual Examples

12. KANGAROOS AND OTHER MARSUPIALS 67-71
    Features, Characteristics, Habitats, Range

13. BELLY BUTTONS AND SHREWS 73-77
    Opossums and Placental Mammals

14. MOLES AND BATS 79-82
    Features of Burrowing Mammals; Characteristics of Bats

15. WHALES, RODENTS AND CARNIVORES 83-88
    Categories of Mammals that are Aquatic, Gnawing or Carnivorous
